

Suitable species

Carnivores and Primates

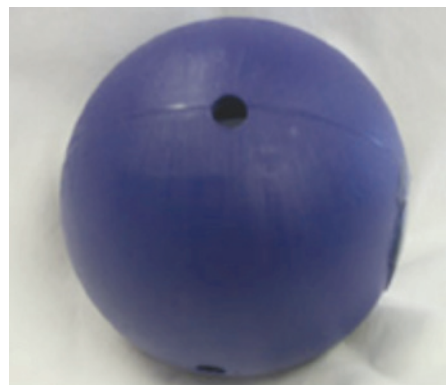

CAT TOY

Continually rolling ball

Cats love these! A ring containing an inner ball and paw-sized holes add up to an exciting toy that cats will bat and chase time and time again. Add scent to the protected inner container and your animals will enjoy even greater enrichment. Available in a wide colour range, the inner ball is rigid and secure, although please be aware that animals with opposable thumbs may be successful in removing it.

Construction

Constructed from high quality, food-grade polyethylene with full UV protection.

Code	Item	Size
859105	Cat toy	24"
